# Subject index

Acetonitrile
Anodic oxidation of hydrazine on glassy carbon electrodes in acetonitrile (Cao et al.) 211
Adsorption–desorption
Adsorption–desorption studies of alcohols at a hanging mercury drop electrode by a flow injection method (Sawamoto) 215
Alcohol dehydrogenase
Bioelectrocatalysis at electrodes coated with alcohol dehydrogenase, a quinohemoprotein with heme *c* serving as a built-in mediator (Ikeda et al.) 221
Alcohols
Adsorption–desorption studies of alcohols at a hanging mercury drop electrode by a flow injection method (Sawamoto) 215
Amalgam voltammetry
Amalgam voltammetric approach to heavy metal speciation in natural waters. Part 3. Distortion resulting from the electrode sphericity and pulse application (Galvez, Schrøder) 121
Amino acids
Comparative study of the cathodic cleavage of *N*-tosyl- and *N*-nosyl-protected amino acids (Zanoni et al.) 103
Amino compounds
Application of bifunctional reagents for selective immobilization of amino and thiol compounds on a carbon electrode surface (Katz) 109
Anisotropy
Study of the electrical anisotropy of polypyrrole films by impedance spectroscopy (Montemayor et al.) 115

Benzotriazole
A simple method for monitoring the inhibition of copper corrosion based on photopotential measurements (Liu et al.) 265
Bifunctional reagents
Application of bifunctional reagents for selective immobilization of amino and thiol compounds on a carbon electrode surface (Katz) 109
Bioelectrocatalysis
Bioelectrocatalysis at electrodes coated with alcohol dehydrogenase, a quinohemoprotein with heme *c* serving as a built-in mediator (Ikeda et al.) 221
Bromate reduction
Temperature dependence of the Tafel slope. The reduction of bromate in alkaline media (Schwarz et al.) 193
α-Bromo-α′-methoxy-quaterthienyl
Electrochemical reactivity of the oxidized species of thiophene oligomers. Formal oxidation potential of α-bromo-α′-methoxy-quaterthienyl (Audebert et al.) 283

Catalytic electro-oxidation
A voltammetric identification of the surface redox couple effective in methanol oxidation on a ruthenium-covered platinum (110) electrode (Herrero et al.) 269
Catalytic reduction of $O_2$
Preparation and electrochemistry of several substituted 9-(4-R-phenyl)-*N*-methylacridinium salts. Kinetic analysis of the $O_2$ catalytic reduction in acidic dimethylsulfoxide and in hydrophobic Nafion® gels (Audebert, Hapiot) 177
Cathodic cleavage
Comparative study of the cathodic cleavage of *N*-tosyl- and *N*-nosyl-protected amino acids (Zanoni et al.) 103
Chemical oligomerization
Oxidative electropolymerization of pyrrole in the presence of pyridinium chlorochromate (Omastová et al.) 169
Chlorine
Direct detection of competitively evolving chlorine and oxygen at anodes (Takasu et al.) 279
Co-adsorption
The electro-oxidation of CO-adsorbates on different platinum electrodes in acid solution (Bilmes, Arvia) 159
Conductance
Ion–ion and ion–solvent interactions of lithium picrate and lithium perchlorate in pure nitromethane and in 15-crown-5 + nitromethane mixtures at 25°C (D'Aprano et al.) 135
Conducting polypyrrole films
Observation of pyrrole radical cations as transient intermediates during the anodic formation of conducting polypyrrole films (Raymond, Harrison) 65
Conjugated thiophene oligomers
Electro-oxidation of substituted conjugated sexithienyls (Roncali et al.) 185
Copper corrosion
A simple method for monitoring the inhibition of copper corrosion based on photopotential measurements (Liu et al.) 265
15-crown-5
Ion–ion and ion–solvent interactions of lithium picrate and lithium perchlorate in pure nitromethane and in 15-crown-5 + nitromethane mixtures at 25°C (D'Aprano et al.) 135

Dibutylsulphoxide gels
Preparation and electrochemistry of several substituted 9-(4-R-phenyl)-*N*-methylacridinium salts. Kinetic analysis of the $O_2$ catalytic reduction in acidic dimethylsulfoxide and in hydrophobic Nafion® gels (Audebert, Hapiot) 177
Differential capacity
Adsorption–desorption studies of alcohols at a hanging mercury drop electrode by a flow injection method (Sawamoto) 215
Direct-mode scanning electrochemical microscopy
Direct-mode scanning electrochemical microscopy with three electrodes: application to fluorescent micropattern formation (Sugimura et al.) 57
d-state density
Study of the density of the d-state and structure transformation of Pt fine particles dispersed on carbon electrodes by in situ X-ray absorption spectroscopy (Yoshitake et al.) 229

Edge effects
Investigation of microelectrodes. IX: Study of the edge effects at a microdisk electrode (Huangxian et al.) 251
Electrocatalytic activity of Ni(cyclam)$^{2+}$
Effects of CO on the electrocatalytic activity of Ni (cyclam)$^{2+}$ toward the reduction of $CO_2$ (Balazs, Anson) 149
Electrocatalytic reduction of $CO_2$
Effects of CO on the electrocatalytic activity of Ni (cyclam)$^{2+}$ toward the reduction of $CO_2$ (Balazs, Anson) 149
Electrochemical oxidation
Electrochemical reactivity of the oxidized species of thiophene oligomers. Formal oxidation potential of α-bromo-α′-methoxy-quaterthienyl (Audebert et al.) 283
Electrochemical properties
Electrochemical properties and electropolymerization of poly(pyridine) rhodium(III) complexes (De Oliveira, Moutet) 203
Electrochemistry of substituted polythiophenes
Solution and solid-state electrochemistry of soluble substituted polythiophenes (Guay et al.) 85
Electrode reactions
Temperature dependence of the Tafel slope. The reduction of bromate in alkaline media (Schwarz et al.) 193
Electrode sphericity effects
Amalgam voltammetric approach to heavy metal speciation in natural waters. Part 3. Distortion resulting from the electrode sphericity and pulse application (Galvez, Schrøder) 121
Electrogenerated chlorine
Electrowinning coupled to gold leaching by electrogenerated chlorine. I. Au(III)–Au(I)/Au kinetics in aqueous $Cl_2$ /$Cl^-$ electrolytes (Diaz et al.) 25
Electro-oxidation
The electro-oxidation of CO-adsorbates on different platinum electrodes in acid solution (Bilmes, Arvia) 159
Electro-oxidation of substituted conjugated sexithienyls (Roncali et al.) 185
Electropolymerization
Electrochemical properties and electropolymerization of poly(pyridine) rhodium(III) complexes (De Oliveira, Moutet) 203
Electrowinning
Electrowinning coupled to gold leaching by electrogenerated chlorine. I. Au(III)–Au(I)/Au kinetics in aqueous $Cl_2$ /$Cl^-$ electrolytes (Diaz et al.) 25

Ferro/ferricyanide couple
A microelectrode study of the mechanism and kinetics of the ferro/ferricyanide couple in aqueous media: the influence of the electrolyte and its concentration (Beriet, Pletcher) 93
Flow injection method
Adsorption–desorption studies of alcohols at a hanging mercury drop electrode by a flow injection method (Sawamoto) 215
Fluorescence spectroscopy
Direct-mode scanning electrochemical microscopy with three electrodes: application to fluorescent micropattern formation (Sugimura et al.) 57
Fluorescent micropattern formation
Direct-mode scanning electrochemical microscopy with three electrodes: application to fluorescent micropattern formation (Sugimura et al.) 57
Formation of polypyrrole films
Observation of pyrrole radical cations as transient intermediates during the anodic formation of conducting polypyrrole films (Raymond, Harrison) 65
Formation–reduction of $PbO_2$
Electrochemical behaviour of a Pb electrode in 0.1 M NaOH + 0.1 M $Na_2SO_4$ at 80°C: a new information on the formation–reduction of $PbO_2$ (Veluchamy, Sharon) 261

Glassy carbon electrodes
Anodic oxidation of hydrazine on glassy carbon electrodes in acetonitrile (Cao et al.) 211
Gold–halide–water systems
Thermodynamics of Cl–$H_2O$, Br–$H_2O$, I–$H_2O$, Au–Cl–$H_2O$, Au–Br–$H_2O$ and Au–I–$H_2O$ systems at 298 K (Kelsall et al.) 13
Gold leaching
Electrowinning coupled to gold leaching by electrogenerated chlorine. I. Au(III)–Au(I)/Au kinetics in aqueous $Cl_2$ /$Cl^-$ electrolytes (Diaz et al.) 25

Halide–water systems
Thermodynamics of Cl–$H_2O$, Br–$H_2O$, I–$H_2O$, Au–Cl–$H_2O$, Au–Br–$H_2O$ and Au–I–$H_2O$ systems at 298 K (Kelsall et al.) 13
Heavy metal speciation
Amalgam voltammetric approach to heavy metal speciation in natural waters. Part 3. Distortion resulting from the electrode sphericity and pulse application (Galvez, Schrøder) 121
Heme *c*
Bioelectrocatalysis at electrodes coated with alcohol dehydrogenase, a quinohemoprotein with heme *c* serving as a built-in mediator (Ikeda et al.) 221
Heterogeneous electron transfer
Heterogeneous electron transfer at electrodes coated with electronically conducting nickel-tetraaminophthalocyanine polymer films (Mu, Schultz) 49
Hg/aqueous solution interphase
Adsorption of malonate and succinate at the Hg/aqueous solution interphase (Pérez et al.) 239
Hydrazine
Anodic oxidation of hydrazine on glassy carbon electrodes in acetonitrile (Cao et al.) 211
Hydrophobic Nafion gels
Preparation and electrochemistry of several substituted 9-(4-R-phenyl)-*N*-methylacridinium salts. Kinetic analysis of the $O_2$ catalytic reduction in acidic dimethylsulfoxide and in hydrophobic Nafion® gels (Audebert, Hapiot) 177

Impedance spectroscopy
Study of the electrical anisotropy of polypyrrole films by impedance spectroscopy (Montemayor et al.) 115
Indium tin oxide electrodes
In-situ twin-electrode spectrocyclic voltammetry with a cell composed of a pair of Nafion®-coated indium tin oxide electrodes each incorporating $Ru(bpy)_3^{2+}$ and methylviologen (Onikubo et al.) 143
Ion pairs
Ion–ion and ion–solvent interactions of lithium picrate and lithium perchlorate in pure nitromethane and in 15-crown-5 + nitromethane mixtures at 25°C (D'Aprano et al.) 135
Electrochemical reactivity of the oxidized species of thiophene oligomers. Formal oxidation potential of α-bromo-α′-methoxy-quaterthienyl (Audebert et al.) 283
Iridium oxide
Direct detection of competitively evolving chlorine and oxygen at anodes (Takasu et al.) 279

Lithium inclusion complexes
Ion–ion and ion–solvent interactions of lithium picrate and lithium perchlorate in pure nitromethane and in 15-crown-5 + nitromethane mixtures at 25°C (D'Aprano et al.) 135

Lithium perchlorate
Ion–ion and ion–solvent interactions of lithium picrate and lithium perchlorate in pure nitromethane and in 15-crown-5 + nitromethane mixtures at 25°C (D'Aprano et al.) 135
Lithium picrate
Ion–ion and ion–solvent interactions of lithium picrate and lithium perchlorate in pure nitromethane and in 15-crown-5 + nitromethane mixtures at 25°C (D'Aprano et al.) 135

Malonate
Adsorption of malonate and succinate at the Hg/aqueous solution interphase (Pérez et al.) 239
Mass loss effects
Amalgam voltammetric approach to heavy metal speciation in natural waters. Part 3. Distortion resulting from the electrode sphericity and pulse application (Galvez, Schrøder) 121
Mass spectroscopy
Direct detection of competitively evolving chlorine and oxygen at anodes (Takasu et al.) 279
Mathematical model
Amalgam voltammetric approach to heavy metal speciation in natural waters. Part 3. Distortion resulting from the electrode sphericity and pulse application (Galvez, Schrøder) 121
α′-methoxy-quaterthienyl
Electrochemical reactivity of the oxidized species of thiophene oligomers. Formal oxidation potential of α-bromo-α′-methoxy-quaterthienyl (Audebert et al.) 283
Methylviologen
In-situ twin-electrode spectrocyclic voltammetry with a cell composed of a pair of Nafion®-coated indium tin oxide electrodes each incorporating $Ru(bpy)_3^{2+}$ and methylviologen (Onikubo et al.) 143
Microelectrodes
Investigation of microelectrodes. IX: Study of the edge effects at a microdisk electrode (Huangxian et al.) 251
Modified carbon electrode
Application of bifunctional reagents for selective immobilization of amino and thiol compounds on a carbon electrode surface (Katz) 109

Nafion gels
Preparation and electrochemistry of several substituted 9-(4-R-phenyl)-*N*-methylacridinium salts. Kinetic analysis of the $O_2$ catalytic reduction in acidic dimethylsulfoxide and in hydrophobic Nafion® gels (Audebert, Hapiot) 177
Nafion®-coated electrodes
In-situ twin-electrode spectrocyclic voltammetry with a cell composed of a pair of Nafion®-coated indium tin oxide electrodes each incorporating $Ru(bpy)_3^{2+}$ and methylviologen (Onikubo et al.) 143
Natural waters
Amalgam voltammetric approach to heavy metal speciation in natural waters. Part 3. Distortion resulting from the electrode sphericity and pulse application (Galvez, Schrøder) 121
Nickel plating
In situ photothermal spectroscopy method for investigating surface changes during electroplating of nickel (Jiang et al.) 257
Nitromethane
Ion–ion and ion–solvent interactions of lithium picrate and lithium perchlorate in pure nitromethane and in 15-crown-5 + nitromethane mixtures at 25°C (D'Aprano et al.) 135
Nosyl group
Comparative study of the cathodic cleavage of *N*-tosyl- and *N*-nosyl-protected amino acids (Zanoni et al.) 103

Oxidative electropolymerization
Oxidative electropolymerization of pyrrole in the presence of pyridinium chlorochromate (Omastová et al.) 169
Oxygen
Direct detection of competitively evolving chlorine and oxygen at anodes (Takasu et al.) 279

Pb electrodes
Electrochemical behaviour of a Pb electrode in 0.1 M NaOH + 0.1 M $Na_2SO_4$ at 80°C: a new information on the formation–reduction of $PbO_2$ (Veluchamy, Sharon) 261
Photopotential measurements
A simple method for monitoring the inhibition of copper corrosion based on photopotential measurements (Liu et al.) 265
Photothermal spectroscopy
In situ photothermal spectroscopy method for investigating surface changes during electroplating of nickel (Jiang et al.) 257
Platinum electrodes
The electro-oxidation of CO-adsorbates on different platinum electrodes in acid solution (Bilmes, Arvia) 159
Platinum microdisc electrode
A microelectrode study of the mechanism and kinetics of the ferro/ferricyanide couple in aqueous media: the influence of the electrolyte and its concentration (Beriet, Pletcher) 93
Poly(pyridine) rhodium(III) complexes
Electrochemical properties and electropolymerization of poly(pyridine) rhodium(III) complexes (De Oliveira, Moutet) 203
Polypyrrole
Study of the electrical anisotropy of polypyrrole films by impedance spectroscopy (Montemayor et al.) 115
Oxidative electropolymerization of pyrrole in the presence of pyridinium chlorochromate (Omastová et al.) 169
Polypyrrole films
Observation of pyrrole radical cations as transient intermediates during the anodic formation of conducting polypyrrole films (Raymond, Harrison) 65
Protecting groups
Comparative study of the cathodic cleavage of *N*-tosyl- and *N*-nosyl-protected amino acids (Zanoni et al.) 103
Pt/C electrodes
Study of the density of the d-state and structure transformation of Pt fine particles dispersed on carbon electrodes by in situ X-ray absorption spectroscopy (Yoshitake et al.) 229
Pyridinium chlorochromate
Oxidative electropolymerization of pyrrole in the presence of pyridinium chlorochromate (Omastová et al.) 169
Pyrrole radical cations
Observation of pyrrole radical cations as transient intermediates during the anodic formation of conducting polypyrrole films (Raymond, Harrison) 65

Quinohemoprotein
Bioelectrocatalysis at electrodes coated with alcohol dehydrogenase, a quinohemoprotein with heme *c* serving as a built-in mediator (Ikeda et al.) 221

Radical cations
Electrochemical reactivity of the oxidized species of thiophene oligomers. Formal oxidation potential of α-bromo-α′-methoxy-quaterthienyl (Audebert et al.) 283
Reaction kinetics
The electro-oxidation of CO-adsorbates on different platinum electrodes in acid solution (Bilmes, Arvia) 159

Reaction mechanism
Direct-mode scanning electrochemical microscopy with three electrodes: application to fluorescent micropattern formation (Sugimura et al.) 57
Rotating disc electrode
Electrowinning coupled to gold leaching by electrogenerated chlorine. I. Au(III)–Au(I)/Au kinetics in aqueous $Cl_2/Cl^-$ electrolytes (Diaz et al.) 25
9-(4-R-phenyl)-*N*-methylacridinium salt electrochemistry
Preparation and electrochemistry of several substituted 9-(4-R-phenyl)-*N*-methylacridinium salts. Kinetic analysis of the $O_2$ catalytic reduction in acidic dimethylsulfoxide and in hydrophobic Nafion® gels (Audebert, Hapiot) 177
Ruthenium-covered platinum (110) electrode
A voltammetric identification of the surface redox couple effective in methanol oxidation on a ruthenium-covered platinum (110) electrode (Herrero et al.) 269
Ruthenium oxide
Direct detection of competitively evolving chlorine and oxygen at anodes (Takasu et al.) 279

Screen-printing
Screen-printed ultramicroelectrode arrays for on-site stripping measurements of trace metals (Wang et al.) 77
Selective immobilization
Application of bifunctional reagents for selective immobilization of amino and thiol compounds on a carbon electrode surface (Katz) 109
Silver–halide–water systems
Thermodynamics of Ag–Cl–$H_2O$, Ag–Br–$H_2O$ and Ag–I–$H_2O$ systems at 298 K (Welham et al.) 39
Solid-state electrochemistry
Solution and solid-state electrochemistry of soluble substituted polythiophenes (Guay et al.) 85
Solvent capacitance
Solvent contribution to the capacitance and solvent orientation at an uncharged electrode. Part I. Theoretical aspects (Amokrane) 1
Solvent orientation
Solvent contribution to the capacitance and solvent orientation at an uncharged electrode. Part I. Theoretical aspects (Amokrane) 1
Spectrocyclic voltammetry
In-situ twin-electrode spectrocyclic voltammetry with a cell composed of a pair of Nafion®-coated indium tin oxide electrodes each incorporating $Ru(bpy)_3^{2+}$ and methylviologen (Onikubo et al.) 143
Stripping measurement
Screen-printed ultramicroelectrode arrays for on-site stripping measurements of trace metals (Wang et al.) 77
Substituted conjugated sexithienyls
Electro-oxidation of substituted conjugated sexithienyls (Roncali et al.) 185
Succinate
Adsorption of malonate and succinate at the Hg/aqueous solution interphase (Pérez et al.) 239
Surface structure
In situ photothermal spectroscopy method for investigating surface changes during electroplating of nickel (Jiang et al.) 257

Tafel slope
Temperature dependence of the Tafel slope. The reduction of bromate in alkaline media (Schwarz et al.) 193
Temperature dependence
Temperature dependence of the Tafel slope. The reduction of bromate in alkaline media (Schwarz et al.) 193
Thermodynamics
Thermodynamics of Cl–$H_2O$, Br–$H_2O$, I–$H_2O$, Au–Cl–$H_2O$, Au–Br–$H_2O$ and Au–I–$H_2O$ systems at 298 K (Kelsall et al.) 13
Thermodynamics of Ag–Cl–$H_2O$, Ag–Br–$H_2O$ and Ag–I–$H_2O$ systems at 298 K (Welham et al.) 39
Thiol compounds
Application of bifunctional reagents for selective immobilization of amino and thiol compounds on a carbon electrode surface (Katz) 109
Thiophene oligomers
Electrochemical reactivity of the oxidized species of thiophene oligomers. Formal oxidation potential of α-bromo-α′-methoxy-quaterthienyl (Audebert et al.) 283
Titanium oxide
Direct detection of competitively evolving chlorine and oxygen at anodes (Takasu et al.) 279
Tosyl group
Comparative study of the cathodic cleavage of *N*-tosyl- and *N*-nosyl-protected amino acids (Zanoni et al.) 103
Transfer coefficient
Temperature dependence of the Tafel slope. The reduction of bromate in alkaline media (Schwarz et al.) 193
Tri(butoxyethyl)phosphate gels
Preparation and electrochemistry of several substituted 9-(4-R-phenyl)-*N*-methylacridinium salts. Kinetic analysis of the $O_2$ catalytic reduction in acidic dimethylsulfoxide and in hydrophobic Nafion® gels (Audebert, Hapiot) 177

Ultramicroelectrode arrays
Screen-printed ultramicroelectrode arrays for on-site stripping measurements of trace metals (Wang et al.) 77
Uncharged electrode
Solvent contribution to the capacitance and solvent orientation at an uncharged electrode. Part I. Theoretical aspects (Amokrane) 1

X-ray absorption spectroscopy
Study of the density of the d-state and structure transformation of Pt fine particles dispersed on carbon electrodes by in situ X-ray absorption spectroscopy (Yoshitake et al.) 229
